

	Technical data sheet	GS-004-01 /-004-05
	<b>Plastic G</b>	Issue date: 17.01.2014
		Valid until:
		Version: 1.1

## 1. Product information

Plastic G is a special Graffiti remover for sensitive plastic and lacquer surfaces which is being produced of eco-friendly and bio-degradable solvents.

## 2. Application

Plastic G is used for the removal of graffiti on soft or transparent plastic and lacquer surfaces, e.g. polycarbonates, vinyl, plexiglas, polyvinyl chloride, acrylic, enamel and many 1-K and 2-K lacquers. Attention: Dispersion and lacquer colors can be dissolved at longer residence time!

## 3. Characteristics

- Eco-friendly and bio-degradable
- Very mild graffiti remover for sensitive surfaces
- Fast removal of graffiti without affecting the surface
- Can also be used on car lacquers.

## 4. Technical data

<b>Color :</b>	Transparent, light yellow
<b>Density :</b>	approx. 1.02 g/cm <sup>3</sup>
<b>Application rate :</b>	The consumption depends on the surface as well as the type and age of the graffiti. Approx. 0,08 - 0,10 l/m <sup>2</sup>
<b>Dilution :</b>	Do not thin
<b>Flashpoint :</b>	>64°C

## 5. Application data

Application areas: Useable outside and inside [in well vented rooms].

The surface has to be dry prior to the application.

**ATTENTION! Before starting a cleaning procedure, always check the compatibility of the surface with the graffiti remover on a test area.**

Apply Plastic G with soft brush, cloth, sponge [white or blue pad] or atomiser [wear protective gloves] and leave on for max. 15-30 seconds. Work on small areas at a time. Do not apply Plastic G on too big of surfaces and keep checking the dissolution progress. Remove the graffiti with warm water, preferably with a high pressure cleaner at low pressure and flat spray nozzle. Small surfaces can be rinsed thoroughly with warm water and wiped down with clean cloth. Further treatments could be possible in case of persistent stains or old graffiti.

### **Note – Color shadows after Graffiti removal**

With old Graffiti it may be required to leave on Plastic G for longer periods of time. Repeat the cleaning process multiple times on dry surfaces.

Should there be left over shadows of graffiti [e.g. permanent marker colors], the following products could be used depending on the surface: Shadow G [Article GS-005-01 /-005-05 /-005-10] or Bleach G [Article GE-006-01 /-006-05].

## 6. Packaging sizes

11 / 5 l

## 7. Storage

In sealed and original packing stable for a minimum of 12 months. Store containers cool and dry and protect against frost.

## 8. Safety data

See safety data sheet
